The career track is led by Emilie Hafner-Burton.

FEATURES
- Builds concepts and tools specific to the public sector and the political process that underlies policy-making.
- Provides interdisciplinary study in political science, economics and finance that reflects how practitioners analyze policy problems and design solutions.
- Offers background on how modern bureaucracies work and interact with the private sector in both developed and developing countries of the Pacific region.
- Deepens knowledge of the links between political process, economic constraints and the actual implementation of public policies.
